

## 7 TRUE BILLS BY GRAND JURY; FIND COUNTY'S BUILDINGS OK

The Adams County Grand Jury returned seven indictments Monday afternoon. Because several of the cases are to be tried simultaneously, the action left six criminal trials for the coming term.

At the same time, the grand jury made a tour of the county buildings, and found most things in very good order.

The grand jury report, as written by the foreman, Mrs. Mary Ramee Eberhart, said: "County jail—everything in very good condition, clean, and the only recommendation is that the driveway to the Bigerville Rd. be repaired. MURDER INDICTMENT

"County home—in very, very good condition. American flag at home in bad condition, should be replaced.

"Jury ask that provision be made for parking of cars when jurors are in session."

The seven indictments were against Philip E. Eltz, Hanover, drag racing; Richard M. Rebert, Hanover, drag racing and involuntary manslaughter; Cecil Wallen, New Oxford R. 2, aiding or assisting a prisoner to escape, conspiracy; Francis L. Beard, Hanover, two counts of assault and battery; Clarence Henry Kress, Hanover R. 2, murder; Roland St. Pierre, Joseph R. Santos, James Robert Perry, Charles J. Ovellett and Evelyn Emma Dias, all of Fall River, Mass., burglary and larceny, receiving stolen goods and conspiracy to do an unlawful act. SOME GUILTY PLEAS

District Attorney Gerald R. Walmer said the drag racing charges against Eltz and Rebert and the involuntary manslaughter charge against Rebert will be combined in one trial because all charges arise from the same series of events.

The paternity charge against William L. Miller, McSherrystown, was continued to August term of court, by which time the child will have been born.

## SCIENCE FAIR AT JUNIOR HIGH THIS WEEKEND

The Earth Space Science classes of Gettysburg Junior High School, taught by Patrick Kelly, are planning a Science Fair on May 1, 2 and 3, to display 150 experiments which have been conducted by students of the Earth Space classes.

"Science fairs are incentive devices, creating interest in science courses for both student and public. They can provide excellent motivation for out-of-class study and more intensive and extensive participation in creative work. Younger students see the exhibits and become interested in enrolling in science courses," Principal Charles L. Edwards said.

"Gifted students are stimulated by science fairs to apply scientific principles and to use scientific methods, as well as to utilize the resources of the community. Competition with others academically is thought to give stature to academic ability. Opportunity for student experimentation is provided along with an opportunity to explore special interests and to express individual ideas and differences. For those who qualify, an opportunity is provided to do independent research and original work and to make contact with professionals in the field. For the school an opportunity is provided to tell the story of the school's Earth Space Science course and to create a broader interest on the part of citizens."

Prizes will be awarded to the first, second and third place winners by the Gettysburg Junior Chamber of Commerce.

Judging of the projects will be based on creative ability, scientific thought, thoroughness, technical skill and clarity and dramatic value.

Projects will be displayed in the junior high school gymnasium on Friday from 9 until 3; Saturday, 2 until 4, and Sunday, 3 until 4.

In most instances, the student who created the project will be present to demonstrate and explain his project for those who come to view the exhibits.

Mr. Kelly is in charge of this program.

## 1,000 Children See "Beauty And Beast"

Approximately 1,000 Adams County children saw "Beauty and the Beast" Saturday at two performances in the auditorium of the Student Union Building, Gettysburg College. The fairy tale drama was presented by the Owl and Nightingale Players under the auspices of the Woman's League for the benefit of the library fund. Mrs. Patricia Schmidt directed the play.

The finance committee reported a profit of \$350 from the performances.

## ROSE DEGREE PRESENTED TO 4 AT BANQUET

(Picture on Page 3)

Following the annual Founder's Day banquet at the Hotel Gettysburg Monday evening, the Order of the Rose degree was conferred upon Doris Lowery, Mary Lou Kranias, Edith Riley and Eileen Baldwin by the local Xi Alpha Chi and the Epsilon Delta chapters of Beta Sigma Phi.

This degree has been designated by Beta Sigma Phi International to express its gratitude and esteem to its members who have "unselfishly devoted their time and effort to the sorority" for 15 years.

The honored members are charter members of the Xi Alpha Chi Exemplar chapter which was organized in 1952. The first local chapter of Beta Sigma Phi was organized in 1947.

Although Beta Sigma Phi International was founded as a social and cultural organization, it has made major contributions to many nationwide charities, including cancer research and cystic fibrosis. Beta Sigma Phi International has also founded Girls' Town in Texas for orphaned girls, regardless of age, color or creed.

The toastmistress for the evening was Helen Emanuel, president of the Exemplar chapter. Barbara Richardson welcomed the guests and Doris Lowery read the Founder's Day pledge. The message from Walter W. Ross, founder of Beta Sigma Phi, was read by Mary Lou Kranias. Patricia McCarthy, accompanied on the piano by Sandy Pyles, sang "She's a Beta Sigma Phi" which was nationally selected as the Beta Sigma Phi song of the year.

Members of the Xi Tau chapter, Littlestown, also celebrated Founder's Day with the Gettysburg chapters.

## Democratic Women Meet On Monday

Plans for participation in today's primary were outlined Monday evening at a meeting of the Women's Democratic Club of Adams County at the Adams Electric Co-operative building, rear of N. Stratton St.

A number of candidates spoke at the meeting including N. Neiman, Caley, York, for congressman; Fred G. Klunk, New Oxford, for assemblyman; Gilbert J. Lupp, Gettysburg, for state senator.

The president, M. Jean Miller, Bonneauville, asked members to assist the registration committee with a registration drive this summer. Final plans were made to attend the state Federation of Democratic Women's convention at Bedford Springs Hotel May 18 to 20.

A donation of \$10 was made toward "Projection '64," a campaign to help finance the presidential campaign telecasts. A social hour followed the meeting.

## Greeks Renew Drive On Strategic Cyprus Areas

By HAL McCLURE  
NICOSIA, Cyprus (AP)—Greek Cypriot forces renewed their drive for St. Hilarion Castle and the strategic Kyrenia Pass shortly after dawn with mortar fire on Turkish positions.

After a night of sporadic firing, Greek national guardsmen lobbed three 60-mm. mortar shells into gunposts near the 11th-century castle.

The tempo appeared reduced from heavy fighting Monday. A U.N. spokesman said positions seemed unchanged overnight. Greek forward elements were reported within a quarter-mile of the fortress.

Projects will be displayed in the junior high school gymnasium on Friday from 9 until 3; Saturday, 2 until 4, and Sunday, 3 until 4.

In most instances, the student who created the project will be present to demonstrate and explain his project for those who come to view the exhibits.

Mr. Kelly is in charge of this program.

tendent's office is checking references of one current applicant.

The board was notified by County Superintendent of Schools M. Francis Coulson that a resolution had been received from the McSherrystown School Board asking that its status as an independent school district be retained in the new county school plan.

The resolution asked the action "by virtue of the unique facets of its geographic location, pupil population, community characteristics, transportation problems and the fact that the potential population change in said school district will be negligible, all of which will be detrimental to the students of said school district and its residents and taxpayers."

### CITIES STATE LAW

The resolution said the McSherrystown board plans a petition with "greater specificity" on its objections to assignment of McSherrystown under any new county plan and indicated its intention of carrying the fight to the state Council of Basic Education.

Superintendent Coulson told the board he had informed a McSherrystown spokesman that under state law the county board must include McSherrystown in its new county school plan.

The county board also received a letter from Henry F. Semke, York Springs R. 2, stating his interest in education in Adams County and urging the board to consider the "best interests" of all the children of the county in formulating the new county plan.

### QUARTERS AVAILABLE

The board was informed that approval has been given by the Upper Adams School Board for use of the Arentsville Elementary School building for a summer school for migrant children this summer. With no funds for the school yet approved at Harrisburg, no further action on the matter was taken Monday evening.

It was announced that George B. Inskip, assistant county superintendent of schools, and Miss Margaret Brant, Carlisle, home economics education advisor, will go to St. Louis May 11, 12 and 13, as representatives of the state Department of Public Instruction for a meeting of the National Committee on the Education of Migrant Children. Mr. Inskip will make the trip by air.

Members of the board were given a report by Mr. Inskip and P. C. Miller, New Oxford district school board member, who attended a state school board institute in March at Penn State University.

### OPPOSE TWO BILLS

The board gave formal approval to a renewal of a contract for transportation of pupils in the Fairfield District with B. J. McKim, for a three-year period, and to general fund budgets for the next fiscal year from New Oxford and Upper Adams Merged School Districts.

The board went on record as opposing passage of House Bills 124 and 125 in the state Legislature and will notify the assemblyman and state senator. The bills propose a constitutional change which would require approval of the electorate for school building projects.

Announcement was made of the program for the Region VI annual meeting of the Pennsylvania School Boards' Association to be held May 16 at the Susquehanna High School at Duncannon.

### NO PICNIC SESSION

The directors voted to omit again the former convention picnic of the county school directors' association. The affair was not held last year for the first time in a decade or more.

The board received a petition from 178 residents of eastern Straban Twp. asking that, in any new school plan, provision be made for continuation of the present assignment of pupils from the New Chester area to New Oxford schools. The petition was forwarded by the Straban Twp. board which had received it first.

A report was made on the court refusal of the Bonneauville petition for creation of a new school district in that borough. State disapproval brought the court action to an end.

### GIVEN MATERIALS

The board approved special education accounts for March showing disbursements of \$19,202 in the regular account and \$9,754 spent in the payroll account.

An upcoming book display at the county library was announced and board members were given a set of statistics showing "Everything Going Up Except" and a reprint of an American Home magazine article on "How to Judge a School System."

The board members also were given a check list assembled by the county staff to "serve as a guide in developing plans for the reorganization of school districts."

President Dean Asquith presided at the two-hour meeting with all members in attendance.

### REPORTS THEFT

Carroll Zentz reported to borough police Monday afternoon that someone Sunday night had "busted" with several cars on his lot on Railroad St. and had stolen a battery from the car of one of his tenants, Henry Vincent.

Mr. and Mrs. Raymond Pidler and daughters, Sandra and John Pidler and daughter, Mary Kathryn, Biglerville, returned home Sunday afternoon after spending a few days with John Pidler's son-in-law and daughter, Mr. and Mrs. Paul Dugan, and children, Bobby, Patsy and Paula, and his son and daughter-in-law, Mr. and Mrs. Glenn Pidler, and children, Susan and John, Duncald.

Lloyd Ecker, Heidlersburg, was guest of honor Sunday at a surprise birthday dinner at the home of his son-in-law and daughter, Mr. and Mrs. Robert Deardorff, Heidlersburg. Guests included Mrs. Lloyd Ecker, Mr. and Mrs. Dale Ecker and daughter, Valerie, and sons, Alan and Brian, Biglerville; Linda, Richard and Robert Naugle, Heidlersburg, and Thomas Osburn, Biglerville, R. D.

After spending the winter months at their home in Auburndale, Fla., Mr. and Mrs. Luther Spangler returned Friday evening to their home in Gettysburg.

Harry Meals has returned to Auburndale after spending a short time with friends here.

Approximately 150 persons attended the annual congregational supper at St. Paul's Lutheran Church, Biglerville, Sunday evening. The invocation and benediction were given by the pastor, Rev. Norman Wilson. Included on the program were devotions by Mrs. Wilson; greetings from the president of the Lutheran Church Women, Mrs. Kenneth E. Lawyer; duet, "Where Cross the Crowded Ways," Mrs. Fred Arnold and Mrs. C. L. Seemann, accompanied by Mrs. C. L. Yost, and a panel discussion with introduction of the discussion theme, "Changes Challenge You" by Mrs. Clyde Heller. C. L. Seemann was moderator and serving on the panel were Earl E. Carey, Lee Kleinfeier, Mrs. Donald Horst and John Leoti.

### STOCKS RECOVERING

NEW YORK (AP)—The stock market made a mild recovery in slackened trading early this afternoon.

Gains of key stocks, running from fractions to a point or so, outnumbered losers.

A higher trend prevailed among steels, motors, oils, rails, nonferrous metals, airlines, utilities, electronics and electrical equipments.

# Adams Electric Coop. Hopes To Cut Rates \$50,000 Later This Year, President Says

The possibility of a \$50,000 rate reduction for members of the Adams Electric Cooperative later this year was announced at the REA-affiliate's annual meeting Friday evening in the annual address of the president, Benjamin Gayman.

A few minutes later he warned members: "We are facing some of the most critical times of our organization. Never before have our opponents appropriated such vast sums of money for our destruction but all that they will or can do will be fruitless if we arm ourselves with the truth and stay united."

In connection with the expected rate cut, President Gayman said: "We are now negotiating new wholesale power contracts with Metropolitan Edison Company and the Pennsylvania Electric Company to bring hydro-electric power to us from Niagara Falls and to supply us with supplemental power.

## GROWTH "GRATIFYING"

"As soon as these negotiations are complete, we will pass the savings on to you in a rate reduction."

President Gayman's address follows in part:

"The growth and accomplishments of your cooperative during the past year are most gratifying. True, we have had, and experienced some disheartening and unsatisfactory results in some areas of operational interests, particularly in failure to get out of committee our bill on territorial protection. This we need for the best interests of us all. In some instances today, our members could be extended electric services by the public utilities but what about others who are less fortunate? Shall we forget them, as 80 per cent of us were forgotten before the Adams Electric Cooperative was in existence? I should say not. Nor does our board of directors intend to sit idly by and allow future economic stability of this member-owned and locally manager cooperative to fail its original intent. With these interests in mind, let me call to your attention a few matters that you the members should also be concerned about.

## REPAID \$1,266,971

"We are most happy to advise you that we now serve 7,609 members over 1,582 miles of line. The value of the investment in your business at the end of the year was \$4,660,000. This represents an investment of \$611 for each person we serve. We have paid back to the federal government \$1,266,971 of this investment and in addition have paid \$615,957 in interest. The members' margins now amount to \$395,427.

"During the last three years, the cooperative has asked groups of people to serve as rural electric minutemen. So far, 162 of your fellow members have served on this committee. By meeting several times during the year, they are advised of the workings of the cooperative and its problems. We ask them to 'spread the word' about your cooperative so that more people will know about the business and its problems. The minutemen appoint new members each year.

"The minuteman committee also serves as the nominating committee for nominating people for directors. They also propose resolutions. We greatly appreciate their interest and work.

"Our financial position has reached the place whereby we can pay capital credit of \$51,755 to those members we were serving for all prior years through 1962. Capital credits represent the difference between what you paid for electric service and what it cost us to supply the service. The checks have been mailed to you. With the economic statistics in mind, let me call to your attention a few matters that you the members should also

be concerned about.

## SUPPORT PRESENT LAWS

"First, that we reaffirm our support of the basic cooperative tax laws and principles as embodied in Internal Revenue Code of 54. This is in short protects the levying of a tax on members' equity until its return.

"Second, we need to be concerned about the economic development of our rural areas both from the full use of our labor potential and the preservation of our natural resources. The RAD program can and does accomplish this task.

"Third, since it has become a known fact that many power companies are charging rates in excess of what is considered a fair rate of return to their customers, we do seek your support for legislation against this practice. And especially the use of such overcharges in anticooperative propaganda and lobbying campaigns.

## PIRATING BY UTILITIES

"Fourth, we do need to continue our support of the long term REA interest rate as established and set forth by Congress for the continued well being of rural America.

"Fifth, as mentioned before, we must all unite our efforts in this state to have enacted into law our rights to continue to exist. In essence, to have protection from utilities' pirating members and invading areas which we have served for years through area coverage loans.

"You know that we pay the Rural Electrification Administration interest at the rate of two per cent in the money we borrow. We have paid REA \$615,957 interest at this rate. We have accumulated \$595,427 in margins. If the interest rate had been 4 per cent our interest would have been \$1,231,941 and we would not have any margins to return to you. In fact, our rates would have been higher just to break even. While our rates are not the same as the other utilities in this area, we are competitive when you consider that we serve only 4.8 people per mile of line while the other utilities serve 30 people per mile of line.

## OTHER OBJECTIVES

"Sixth, since 45 per cent of our cost of doing business is the cost of our wholesale power, we do believe that everything possible should be done by us to obtain power from less costly sources. These sources at present can come only from hydroelectric plants where spilled water can be turned into cheap electricity when the same storage is needed for other purposes.

"Seventh, I mentioned briefly earlier the need for full cooperation by us all for a common goal. This cooperation is also important from an organizational standpoint. Many of us here are members of two or more organizations, in some instances with opposing interests. This should not be so. We need to and must work together from the grass roots not to be directed or influenced by personal opinions of national leaders.

"Now, you ask just how do we set out to accomplish these objectives? There are several approaches to the problem but first of all we need to know the facts and armed with facts or knowledge of a situation. Then and only then, can we become effective.

## DOUBLING EVERY 7 YEARS

"Your board of directors has been keeping abreast with developing problems. Through our personnel we attempt to pass along to you the total membership, as well as the public, all aspects of our way of doing business and its relationship to the economic prosperity of the total community. We do this through our monthly newsletter to every member and occasional news releases and advertisements in our local papers. Our story is told in public meetings

on Hold Stuller Funeral

Funeral services for Edward Ezra Stuller, 81, who died at his home at Taneytown R. 1 Wednesday, were held Saturday morning at 11 o'clock in the United Brethren Church, Taneytown. Rev. Paul Rhinehart was in charge of the service assisted by Rev. Arthur W. Garvin, a former pastor. Interment was made in the Lutheran Cemetery, Uniontown. Pallbearers were Walter Clingen, Edward Clingen, Charles Clingen, Theodore Hill, Ralph Koon and Charles Hulker.

## BURY MRS. WILSON

Funeral services for Mrs. Clarence Wilson, 58, who died Wednesday evening at the Carroll County Hospital, were held Saturday afternoon at 2 o'clock from the C. O. Fuss and Son Funeral Home, Taneytown, in charge of Rev. Arthur Garvin, a former pastor of the EUB Church, Taneytown. Interment was made in Hillcrest Memorial Gardens, Gettysburg. Pallbearers were William Smith, Kenneth Glass, Robert Kirkland, Tyler Flannery, Charles Stanford and Joseph Meulhausen.

of membership and civic organization. When in doubt on any particular issue, do you ask for clarification at the cooperative office or do you instead shrug it off as propaganda?

"Your board is proud of our accomplishments. We have come a long way. Our uses and needs of electric power are increasing at a rapid rate, doubling about every seven years. So you see the job is not done, nor will it ever be done unless we shall fail to continue to progress."

## 7 TRUE BILLS

(Continued From Page 1)

James L. Smith Jr., Gettysburg; Charles A. and Phyllis R. Harlow, Guernsey, and Marjorie Wagaman, Gettysburg R. 3, entered pleas of guilty to a charge of burglary and larceny arising from thefts from a beverage firm along the Lincoln Highway east of here. At the arraignment before the court Attorney Eugene R. Hartman was asked by the court to confer with Mrs. Harlow and Mrs. Wagaman. He returned to say that the young women wished to continue their plea of guilty because "unfortunately they were with the men and did not object and did eat some of the potato chips taken from the place.

Attorney Oscar Spicer was asked by the court to confer with Mr. Smith and Harlow before the court accepted their pleas. The two men entered pleas of guilty to burglary and larceny and malicious mischief at Dave Oyler Motors. Smith withdrew a plea of guilty to a charge of larceny of a motor vehicle from Hunt Ave. Motors. He was advanced to grand jury and asked that the court appoint an attorney for him.

## CHARGE DROPPED

A plea of guilty was entered by Frank Glenn Willen, Warmaster, Pa., on charges of fraudulent conversion, forgery and obtaining money by false pretense laid against him in 1961.

Larry Leffler, Fairfield R. 2, through his attorney entered a plea of guilty to charges of forgery and conspiracy. Edward P. Stull, Hanover R. 2, entered a plea of guilty on a paternity charge. Roland L. Zarman, McSherrystown, entered a plea of guilty on a paternity charge.

The charge of assault and battery brought against Herbert L. Fetter Jr., Gettysburg, by his wife, was dropped at her request, with Fetter to pay the costs.

Other defendants, who had previously indicated they planned to plead guilty, formally signed their pleas at the arraignment before the court.

Those who had pleaded guilty were instructed to return May 9 for sentence.

## COUNTY DRIVER FINED

Lawrence R. Plank, Gettysburg R. 3, who pleaded guilty to drunken driving, was fined \$250 in York County court on Monday.

## FIFTY YEARS AGO

Drew Good Crowd: St. James Chapel was well filled on Tuesday evening for the production of "The Old School of Hick'ry Holler" presented by the members and friends of Miss Maude Miller's Sunday School class.

The play was well given and greatly enjoyed by the large audience. About \$20 was cleared.

The following composed the cast: Starr Hess, Louise Kappes, Emma Sachs, Grace Rudisill, Lediath Galbraith, Ruth Reinecker, Emma Dugan, Emily McDonnell, MaeBelle Little, Mr. Krabs, Louis N. Snyder, Russell Fink, Howard Bink, Amos Taylor, Mr. Hesson, Mr. Lang, Mr. Springhorn, Paul Horick, Vance Boyd, Mr. Myers, Mr. Livingston and Mr. Fisher.

Near Mexico: William Dillman, a son of Albert Dillman, South Washington street, is a member of the 14th United States Cavalry which has been on the Texas border for the past two years and which is ready for immediate service in Mexico in case of hostilities. The young soldier's enlistment expires on May 20th next.

Enjoyed Banquet: On Wednesday night the Highland Township Rural Telephone Company held a banquet at Hammers' Hall. Amos H. Butt, Gettysburg was the caterer. The following were present: Frank Wartthen and wife, Jacob I. Herter and wife, H. V. Kepner and wife, W. H. Weaver and wife, Charles A. Spangler and daughter, J. Jere Plank and wife, Charles A. Hershey and wife, Allen Knoeze and wife, William C. McGaughay and daughter, J. B. Horner and sister, Charles A. Lott and S. W. Hammers.

Night Fire: J. J. Plank left a large wagonload of straw standing in Race Horse Alley in the rear of Chambersburg street Thursday afternoon. At ten o'clock in the evening some one set fire to it and a blaze resulted which brought out the firemen and many citizens. The fire looked threatening for a time as it was close to four or five barns. Brick and metal walls proved effective, however, and no damage other than the destruction of the straw resulted. The absence of wind helped the firemen who put out the blaze with a small plug stream.

Tough Pupils Current History: Believing that the High School graduates of the present day should go out into the world with something besides mere "book learning" Prof. Daniel Ruff of the New Oxford schools established a course this term in Current History and two prizes were offered for the pupils who could answer most successfully a series of ten questions asked them. The members of the committee in charge of the examination were — Charles K. Yeager, Dr. W. R. Snyder and William Himes. Miss Kathryn Allwine was awarded the first prize with a percentage of 96, her only failure being to answer correctly the question "Who is Ban Johnson?" The second prize went to John W. Myers.

The first veteran of the Fifth Regiment Volunteer Infantry of the Spanish War Veterans to arrive in Gettysburg was J. H. Minnigh, a musician of the veterans. He is staying at the home of Captain H. N. Minnigh, his father. They are the only male survivors of the large Minnigh family, which was prominent in Gettysburg years ago.

Peculiar Sickness: William F. Codori and four of his children were taken sick after supper Monday evening and for a time were in a serious condition. The trouble was evidently caused by something they had eaten at the time but they have no idea what it could have been. Several doctors were called to attend the family and all recovered. The children taken ill were Marie, Joseph, Robert and Katherine.

## Today's Talk

## PLEASURES

Life is difficult enough even at its best, but it can be made so much more bearable and happy by bathing it now and then with likable and comforting pleasures. It was Thoreau who said: "That man is the richest whose pleasures are the cheapest."

The happiest pleasures are not always those that have to be bought. Walking to lunch one day I passed the public library of my town, and there saw a tiny child on the grass near an open space of dirt, and there he was having fun — satisfying his love of pleasure at no cost at all.

Simple pleasures, as well, are usually the most gratifying. A silent game, or hours devoted to some interesting hobby, give pleasure that is immeasurable. Naturalists spend years at studying the habits and traits of birds, insects, and animals — and the pleasure derived cannot even be expressed, for it is so personal. The simplest stone, picked up from the soil, has interest of anyone if he will but examine it with the end in view of genuine pleasure. I know a man who collects stones — stones that have cost him nothing but the effort of searching them out.

The enjoyment of music, art and reading is pleasure that has no end. There is a wholesomeness about the enjoyment of clean sports that gives pleasure to multitudes, especially the outdoor events that appeal to the many. We wouldn't be worth much to ourselves, or to any one else, without our indulgence in worthwhile pleasures.

Many men spend a great part of their lives seeking out the solution to many things — just for the pure pleasure of having found that solution. The scientist, for example, gets more real pleasure out of a discovery than he ever could out of having done it for mere monetary or personal gain. Even work can be made a great pleasure!

But perhaps the greatest pleasure that can come to any of us is to give the key to some pleasure to someone else. Certainly this can be the cheapest — and most satisfying — of all pleasures.

## Just Folks

## THE DOUBTER

He looked at the world through his limited sight, saw sunrise of morning and stars shine at night; trees bud in the springtime and songbirds return, and, baffled by secrets he struggled to learn, he said out of chaos and slime earth and man. By chance were produced without purpose and plan.

Though never he spoke it, and this is my line, he thought, there's no wisdom that's greater than mine. To chance and to havec and not 'some law

The credit he gave for what beauty he saw, No faith, no belief, marked his toll, night or day;

He was honest because he had learned it would pay.

In a world that's so full of such mysteries deep As red and white roses and waking from sleep;

Th' seasons, the creatures to instinct condemned,

The oceans, the mountains, the skies, starry-gemmed,

The laughter, the pity, the rich mind of man,

It is hard to believe life lacks purpose and plan.

Bullets Whip Shippensburg  
As Lombardi Sets Mile Mark;  
Juniata Here On Wednesday

The Gettysburg College track team rolled to its fourth win of the year, compared to two losses, by walloping Shippensburg State College 32-39 Monday afternoon on Memorial Field.

Jim Lombardi, who took part in only one event during the day, established another mile record. This time he ran the four laps in 4:34.8 bettering his old performance of 4:25.6, set exactly two weeks ago. Ed Salmon went by himself in the two-mile run, winning in 10:04.7.

**DOUBLE WINNERS**

Dale Boyd and Harry Buzzard were the lone double winners for the day. Boyd captured the 100 and 220-yard dashes while Buzzard snapped the finish tape first in both hurdles.

A trio of Bullets turned in fine performances in the field events. Dick Dreas continued to dominate the high jump as he equalled his season high of 6'2". Bob Oakley took a second in the shot-put with a heave of 41'2" and Bob Straub tossed the javelin to a first place distance of 162'4".

Coach Hal Glad's Bullets will return to action on Wednesday when they tangle with Juniata on the Memorial field in a 3 p.m. contest.

**The results:**

## NEW THEME FOR BONANZA SUNDAY NIGHT

### People In The News

By THE ASSOCIATED PRESS

MOSCOW (AP) — Premier Khrushchev and President Ahmed Ben Bella of Algeria conferred in the Kremlin Monday. Subject of the conference was not revealed.

NEW YORK (AP) — The Cartwrights rode right off the Ponderosa into new territory Sunday night. NBC's "Bonanza" told a story about Negro discrimination.

The Ladies' Culture Society of old Virginia City planned a charity concert to help the starving Piutes and hired the world-famous singer, Thomas Bowers, to perform. When the world-famous singer arrives on the stagecoach, he turns out to be a Negro.

The shocked president of the Ladies' Culture Society is rude to him; the local hotel clerk won't rent him a room. A ballyhoo bartender won't serve him and insultingly calls him boy.

## MAKES ITS POINT

Fortunately, Hoss Cartwright happens to be around. With the beginnings of a lynch mob in pursuit, Hoss takes Bowers to the family ranch. There's a suspicion that he's a runaway slave accused of murder, so the singer winds up in jail. Word clearing him comes in the nick of time.

Bowers sings at the concert inspite of the bad treatment and, receives a standing ovation from all present—including the society president—as the bad bully and his followers sink off.

The simple, uncomplicated black-and-white nature of the classic Western make it an effective vehicle for a morality tale. The, "Bonanza" episode made just one point that a man should not be judged by the color of his skin.

"Time for Elizabeth" was a little comedy that Groucho Marx co-authored around 1948 and has played in road tours and summer stock from time to time. It turned up again Friday night on NBC's Bob Hope Theater looking its age.

MONTREAL, N. C. (AP) — Southern Presbyterians looked for ways today to translate into action a stronger stand on civil rights.

Commissioners delegates to the General Assembly of the Presbyterian Church in the U.S. Southern adopted Saturday a general policy favoring the civil rights movement but couldn't agree on a plan of action.

### U. S. WINS IN LENINGRAD

LENINGRAD (AP) —

The U.S. basketball image, shaken somewhat when Russian teams won three straight games from a touring American squad last week, appeared brighter today.

The traveling AAU team, bolstered by five Olympic eagles, ended its tailspin Sunday by trimming an All-Leningrad

74-65.

Jim Barnes of Texas Western, only collegian among the Olympic team members on the Soviet tour, scored 20 points Sunday to pace the U.S. comeback. The other Olympians are Larry Brown, Dick Davies, Pete McCaffrey and Jerry Shipp, all AAU standouts.

The Americans dropped two straight to the Russian national team at Moscow and were beaten here Saturday night. A U.S. team had never been beaten before in Russia.

ATHENS, Greece (AP) — Premier George Papandreu announced Sunday night that all 400 political prisoners still held for crimes against the state during the 1947-49 Communist uprising would be released this week.

## SOON TO ORBIT PAYLOADS 7 TIMES HEAVIER

SUNNYVALE, Calif. (AP) —

Unprecedented 100,000 - pound payloads soon can be hurled into orbit by mass-produced solid rocket motors locked into clusters, says an aerospace expert.

Such loads would be seven times greater than the heaviest the Russians have been known to orbit.

Cylinders of rocket power stacked like tomato cans will be able to loft the 50 tons of useful cargo within three years, Barne R. Adelman, president of United Technology Center, a division of United Aircraft Corp., predicts.

TEST IN '65

The center is already producing segmented rockets for the Titan III-C, which the Air Force expects to be a work-horse booster for the next decade of space launching.

A pair of five-segment motors on the Titan III-C will provide more than two million pounds of lift-off thrust. The vehicle is scheduled for its first flight tests in 1965.

Each steel-jacketed segment of the first-stage booster is 10 feet in diameter and weighs about 50 tons when filled with rubbery fuel.

NOT NEW IDEA

Clustering rockets isn't a new idea. Last year the center test fired a cluster of 24 smaller solid-fuel segments, four six-motor stacks. Anchored to the test pad, it produced 140,000 pounds of thrust during a 14-second burning time.

The superlauncher would be as tall as a 26-story building and weigh more than seven million pounds.

It would cost substantially less than a launch vehicle of the same payload capacity using an all-liquid propellant, Adelman says.

SAIGON, South Viet Nam (AP) —

American Army Lt. Ronald Hines was killed near the southern tip of South Viet Nam Sunday as government troops tracked Communist guerrillas near embattled Kien Long.

Hines was the 131st American to die in action in Viet Nam and the 35th to fall this year, military spokesmen said.

## China And France Get Ambassadors

PARIS (AP) — France and Red China announced the appointments of their ambassadors to Peking and Paris Monday three months after they established diplomatic relations.

Red China chose Huang Chen, a diplomat who formerly was a major general in the Chinese Communist army. He is one of six deputy foreign ministers. His age was not given.

France named Lucien Paye, 57, who recently has been ambassador to Senegal.

Paye served as minister of education in 1962.

## MOST DRAKE RECORDS TOP PENN RELAYS

PHILADELPHIA (AP) — This is one of those years when the only real winner in the comparative count down after the Penn and Drake Relays is Uncle Sam.

This is an Olympic year and the old gent in the Red, White and Blue suit rubs his hands with satisfaction over good performances whether they be in Philadelphia or Des Moines.

The actual count in 19 comparative events was 12-8 in favor of Drake. The athletes at Des Moines turned in faster times in eight track events and better distances in four field events.

Vince McArdle of Manhattan won the 400-meter hurdles at Philadelphia in 51.5, and Bill Hardin of Louisiana State the 440-yard hurdles in 51.7 at Drake, a standoff in view of the fact the Penn event is a few strides shorter.

Villanova became the third team in the history of the 70-year-old Penn Relays to win four major relay events at this oldest and biggest track and field annual of its kind. But the Wildcats were outrun in three of the four events by their Drake counterparts. Villanova took the four-mile relay in 16:507 faster than Missouri's 16:52 at Drake.

In the sprint medley, however, Texas Southern's Drake time of 3:19.8 was better than Villanova's 3:234; Missouri turned in a 7:20.6 time in the two-mile relay to 7:31.7 for Villanova, and Western Michigan's 9:51 for the distance medley outdid Villanova's 9:55.8.

## BULLETINS

MOBILE, Ala. (AP) — Catholic schools in the Mobile-Birmingham Diocese have been ordered integrated next fall.

The archbishop of the diocese ordered the integration in a letter read Sunday in Masses of all churches in the diocese.

made up by the state of Alabama and northwest Florida.

There are approximately 25,000 pupils in about 80 elementary schools and 13 high schools in the diocese.

"He had information that has never been revealed publicly," Arm said Sunday.

NEW YORK (AP) — Deputy Police Commissioner Walter

Arm says George Whitmore Jr.,

Scranton will meet with Presi-

dent Johnson at 4:30 p.m., EDT, today at the White House to discuss coal regions problems involved in the federal government's Appalachia program.

The meeting was requested by Scranton, his office said, after the governor was unable to attend a meeting with the President in Pittsburgh last Friday.

## MARTIAN' STAR GETS NEW ROLE IN WILDER SHOW

HOLLYWOOD (AP)—This is Ray Walston's year—and about time!

The offbeat comedian-actor has been turning in fine, stylized performances on the stage and screen—"South Pacific," "Damn Yankees"—for several years without making an appreciable impact on the public. This television season he finally hit big with "My Favorite Martian."

### HAS NEW ROLE

Now he has inherited a leading role in "Kiss Me, Stupid" from heart-stricken Peter Sellers. There can be no doubt he is enjoying his surfeit of riches. "I've made a lot of pictures in pretty good roles and nothing happened," he remarked. "Now maybe it will."

"There are two versions of how it happened," said Walston. "I read in the trade papers on the Tuesday after Sellers' illness that Danny Kaye and Tony Randall were being considered as replacements.

"That started me thinking. Randall had beaten me out of a couple of parts I wanted to play. Why couldn't I do the role. So I placed a call to my agents and told them to talk to Billy Wilder about it."

"The other story is that even before my agents could get through to Wilder, he was placing a call to them to ask about my availability."

It was learned later that both stories were correct. The thought of Walston's casting apparently occurred to him and to Wilder at the same time.

The actor went to see the producer-director-writer and reminded him of a remark he made during the filming of "The Apartment." "You told me one day you would write me a good part," Walston said.

"This is a great part," Wilder corrected.

But Walston still didn't have

the job. He took the script home and called Wilder the next day.

"I told him it was a very good script," said Walston. "What else could I say? That it was the best script I had ever read? I couldn't say that to Billy Wilder. I'd sound like an idiot from Hicksville."

Walston, a confirmed worrier, noted that Wilder sounded chilly over the phone, and he feared he had blown the job. His fears were unfounded. He finished the season's shooting of "My Favorite Martian" on a Thursday and began "Kiss Me, Stupid" the next Monday.

## James MARLOW Reports

By The Associated Press

WASHINGTON (AP) — This year time is on the side of those opposing a constitutional change to undo the Supreme Court's ban on Bible reading or prayers as a religious exercise in public schools.

The big House push to make this change—there are 146 proposed changes—is coming late in 1964, perhaps much too late. The leader of it, Rep. Frank J. Becker, R-N.Y., is a little gloomy about it himself.

Even if the elections weren't coming up, this is a sore subject. With House and Senate members anxious to go home to campaign, much will be left undone in the rush to get away. That would be true in any election year.

### Filibuster An Element

But in this one the Senate's Southern filibuster, which has lasted weeks and will go on more weeks, will leave unfinished business piled up this summer.

In 1962 the Supreme Court held that a state may not compose and prescribe a form of prayer to be recited daily at the opening of its public schools. The court got an angry reaction to this one. But it was unfeared.

In 1963 the court went further by holding a state or city cannot require the Bible to be read, even without comment, or the Lord's Prayer to be recited each day at the opening of its public schools.

### Many Attacks

Criticism thundered over the court—the cry went up: "Are we to become godless like Russia?"—but the justices pointed out they were simply trying to make sure there would be no violation of the Constitution's First Amendment.

This was the court's position: the First Amendment requires

government to maintain strict neutrality, neither aiding nor opposing religion. It says: "Congress shall make no law respecting establishment of religion or prohibiting the free exercise thereof."

The court has been attacked from the beginning of its history, although perhaps never more so than on its Bible-prayer decision, and with various results.

Right now there are wide divisions on the court's Bible-prayer rulings for any attempt to amend the Constitution to give government approval to Bible reading instantly raises questions.

### Proposed Amendment

This is the amendment Becker proposed: "Nothing in this Constitution shall be deemed to prohibit the offering, reading from, or listening to prayers or biblical scriptures, if participation therein is on a voluntary basis, in any governmental or public school, institution or place."

An idea of some church opinion is given by this: The Becker amendment has been opposed by a group of Maryland clergymen from Presbyterian, Episcopal, Methodist and Baptist churches, the United Church of Christ, Seventh-day Adventists, Society of Friends and the Jewish faith.

They said the First Amendment as it stands, barring Congress from making any law affecting the establishment of religion, would be weakened by the proposed change.

TAIPEI, Formosa (AP) — An independent defeated the candidate of President Chiang Kai-shek's Kuomintang party Sunday for mayor of Taipei, Formosa's capital.

Henry Yu-shu Kao, a former mayor, beat Chou Pai-lien, 191,538-175,117 in a race widely described as a test of the ruling party's strength in Taipei.

HASLEMERE, England (AP) — Sir Beverley Baxter, 73, Canadian-born member of the British Commons and a former editor of the London Daily Express, died Sunday. He was born in Toronto.

## CHINESE FAIL TO ANSWER BID TO 3-WAY TALK

By HANS BENEDICT

VIENNA, Austria (AP)—Communist Romania says Red China has not replied to a Romanian proposal for a Soviet-Chinese meeting at which Romania would try to mediate their bitter dispute.

The Russians "agreed in general" with the Romanian proposal, the Romanian Communist party newspaper "Scientia" said Sunday.

### SEEK TRUCE

The Romanians urged the three-party meeting last month to obtain a truce in communism's internal war and to set the stage for an international conference of Communist party leaders to give the world a display of unity.

In a party statement and long analysis of the Romanian mediation effort, the newspaper appealed for a truce in the ideological dispute, saying it was "the duty of every (Communist) party to do its utmost to diver the danger of a split."

The Romanians said the Soviet-Chinese-Romanian conference should discuss and finalize an appeal to all the Communist and workers' parties "to solve controversial issues in conformity with the norms jointly established at the 1957 and 1960 Moscow conferences concerning relations between Communist parties."

The Soviets also have proposed a conference of Communist parties, confident that Soviet Premier Khrushchev's views would be upheld over those of Red Chinese party Chairman Mao Tze-tung. Peking has been cool to such a conference.

Despite the Romanian plea for a truce in the verbal hostilities, Moscow and Peking continued to hurl insults at each other.

### PEKING IS COOL

The official Peking People's Daily charged today that Khrushchev had once supported Leon Trotsky, the arch-heretic of Soviet communism. Trotsky, Lenin's close collaborator and apparent heir, was purged by Stalin and murdered in exile.

The latest Peking attack on Khrushchev was in reply to Soviet attempts to pin the Trotskyite label on the Chinese leadership.

## Seminarians Of 3 Faiths Trudge Vigil At Lincoln Memorial For Rights Bill

By HARRY KELLY

WASHINGTON (AP) — For nine days now — and no one knows for sure how much longer — theological students of the Protestant, Jewish and Roman Catholic faiths have been standing in a quiet vigil at the Lincoln Memorial.

They intend to stay, 24 hours a day, until the civil rights bill is passed by Congress.

It has been a chilly, wet and undramatic demonstration — three students on a shift grouped around a black-and-white sign across the circle from the long flights of steps leading to the statue of the Great Emancipator.

## NAZIS BREAK IN

Monday night, however, a rival camp was set up barely 20 feet away.

George Lincoln Rockwell, head of the American Nazi party, led a half dozen of his followers in to distribute leaflets against the civil rights bill.

Briefly the two sides mingled, exchanging their literature, before police shooed off the Nazis who lacked a permit.

To present a rival vigil the Rockwell group left behind one of their party — a stiffly erect 19-year-old in a tan storm-trooper cap decorated with a swastika.

"We'll be here as long as those people are," said Robert Lloyd of Arlington, Va., a follower of Rockwell.

## STAND IN MUD

It was a damp night and the students stood in the mud watching as buses unloaded hundreds of tourists at the monument.

Some of the tourists — most of whom were out-of-town high school students on the annual spring trip to the capital — stopped. A few took pictures with flash cameras. Some read the sign which says "Civil rights is basically a moral issue" and "We are brothers before God." Some asked questions.

CORE LEADER  
SENT TO JAIL

NEW YORK (AP) — Arnold Goldwag, chief spokesman for the militant Brooklyn chapter of the Congress of Racial Equality has been sentenced to 13 months in jail.

Sentence was imposed by three judges in Manhattan Criminal Court Monday because Goldwag had persisted in disorderly civil rights demonstrations while on probation.

Goldwag lay on the floor after the sentence was announced. As attendants dragged him away, he shouted: "Ku Klux Klan."

The outburst led Judge Benjamin Gassman to impose an additional sentence of 30 days for contempt of court.

Goldwag, 26, is the son of a Jewish garment worker and brother of a rabbi. He studied sociology at Brooklyn College.

Goldwag was major force in planning an auto stall-in for the opening of the New York World's Fair last Wednesday. The plan to tie up traffic flopped.

## ADVERTISE IN THE TIMES

## PENNA. JEEP FIGURES IN MURDER CASE

MONTREAL (AP) — Two witnesses in the Coffin inquiry testified Monday about a jeep, bearing a Pennsylvania license, which was reported in the area of three slain Hollidaysburg, Pa., hunters on the Gaspe Peninsula in 1953.

Gerald Quirion, 55, a Montreal machinist, said he saw such a jeep on a back road about 40 miles from the murder site at the time of the killings while he was driving a truck.

Gerald Tapp, 44, a merchant from Moncton, N.B., testified he was in Gaspe at the end of May, 1953, and met a bear hunter who was from Pennsylvania.

The inquiry was opened up recently by a book, "I Accuse the Assassins of Coffin," by Montreal author Jacques Hebert, who contends that Wilbert Coffin was railroaded to the gallows by Quebec government officials. Coffin was found guilty of the murder of one of the three hunters.

The victims were Eugene Lindsay, 47, his son, Richard, 17, and Frederick Claar, 20.

At the opening of Monday's hearing, commission counsel Jules Deschenes reported that Robert Ritz of Hollidaysburg was the first person called who refused to testify at the inquiry.

## COP, WRESTLER TAKE FUGITIVE

UCSON, Ariz. (AP) — A barefoot policeman and a former college wrestler teamed up Monday to capture one of the FBI's 10 most-wanted criminals.

He is Frank Dumont, 42, convicted six times since 1936 and wanted in Pocatello, Idaho, on charges of burglary and the assault of a 14-year-old girl.

The manager of a Tucson apartment house spotted Dumont rifling through an apartment, and alerted two tenants, off-duty policemen Richard Milne and Robert Wilson.

A third tenant, Dennis Favero saw Milne race barefooted after the fleeing Dumont and joined in. Wilson had gone to get a car.

Milne caught up with Dumont and, as the two battled, Favero, a University of Arizona graduate student and former Notre Dame wrestler, arrived and applied a hammerlock on Dumont.

"All right," Milne quoted Dumont as saying. "There's too many of you. I'll go peacefully."

## Say 900 Pennsy Jobs Eliminated

PHILADELPHIA (AP) — A government arbitration board's ruling will mean the elimination of about 900 firemen's jobs on the Pennsylvania Railroad, according to the carrier.

The board has sanctioned the dropping of 90 per cent of the firemen on freight and yard diesel locomotives. An appeal by the railroad unions was rejected Monday by the U.S. Supreme Court.

The railroad said the effect beyond the first year cannot be calculated because the elimination of jobs through not hiring replacements cannot be estimated.

EDWARD BENNETT WILLIAMS, the Teamsters general counsel who has defended Hoffa in some of his legal battles, is reported to have ruled that the union will be breaking the law if it pays the fees.

## QUESTION LEGALITY

Hoffa, according to an aide, made his decision in Chicago where he is on trial on federal charges of misusing \$20 million in union pension reserves.

"Mr. Hoffa wants to find out if such payments are legal," said Teamsters Vice President Harold J. Gibbons in St. Louis.

The cargo is the gift of the people of Allentown, the All-America city of 1963, to the people of Seward, which was chosen the All-America city of 1964 before last month's quake. The cities were so designated by the National Municipal Association and a magazine.

Jack Werner, a former mayor of Seward, came to Allentown for Monday's departures ceremonies, capping a month-long "Save Our Seward" campaign.

Gibbons denied reports that the funds had been cut off by the union's secretary-treasurer.

## Doctor Amasses Swimming Miles

DENVER (AP) — For a man who used to be afraid of water and didn't learn to swim until he was middle-aged, Dr. Harry V. Bigelow has come a long way — and swum a long way.

The local osteopath launched a learn-to-swim crash program in 1949 at the Denver Athletic Club swimming pool. "I decided to learn to swim or drown," he recalls. It took him two years before he could swim the length of the pool.

But once past that point he made up for lost time. Swimming for an hour every weekend at noon, he has amassed a total of 2,040 miles in the Athletic Club pool, or more than the distance from Denver to New York. On his semimannual vacations he goes to Hawaii, Jamaica, Mazatlan, Mexico and Las Vegas to swim, but that doesn't go on his official record.

He said the President was "Johnny on the jump" in his action on the suggestion. The funds, Scranton told newsmen after conference with the President Monday, "so there will be another \$10 million for the coal region."

## FOR AFTER-EFFECTS

He said the President was most cooperative and very effective in the action he took immediately," Scranton told newsmen after conference with the President Monday, "so there will be another \$10 million for the coal region."

Scranton sought the \$10 million for what he described as the five after-effects of coal mining. He said they cause and perpetuate unemployment in Appalachia.

## LISTS 5 NEEDS

They were listed as:

1. Subsidence and cave-ins of surface above mining operations, causing great damage and preventing development.

2. Underground fires endangering a number of populated areas.

3. Unsightly scars left by strip mining.

4. Burning refuse dumps and spoil banks polluting the air, destroying valuable land and creating extensive eyesores.

5. Contamination of more than 2,000 miles of streams and rivers of Pennsylvania alone from both underground and strip mining.

George Reedy, White House press secretary, said it was hoped the governors' responses to the Scranton proposal could be received in time to make it possible to incorporate the \$10 million proposal in the President's message on Appalachia, due to go to Congress today.

## Visitors Will See Rare Art At World's Fair Pavilions

By MILES A. SMITH

NEW YORK (AP) — It might be too much to expect that a World's Fair — such as New York's 1964-65 effort — would be drenched in culture. This one won't be.

Among its visitors, at least a few may be interested in paintings, sculptures and graphic art. What they will see is Michelangelo's "Pieta" at the Vatican Pavilion, a few other treasures from abroad, a smattering of contemporary art, a lot of murals by practically anonymous people, the inevitable artsy-craftsy atmosphere things and not much else. At least so far as Art with a capital letter is concerned.

But there are some things worth looking up. And of course the city is rich in permanent museums, so that a fair visitor may slake his esthetic thirst away from the site of the fair itself.

### SUMMARY OF ARTS

Here is a capsule summary of what a diligent spectator may be able to find at the fair's layout in Flushing Meadows:

— Besides the Vatican's "Pieta," the classical art includes a number of major works at the Spanish pavilion. There are about a half dozen locations in the international area that will have major examples of ancient and modern art.

— Despite the efforts of many artistic groups to promote a nationally organized exhibition of works by recognized creators of contemporary American art, this project has not come to fruition. However, New York and New Jersey are among the states showing some contemporary examples.

### DIFFERENT KINDS

— In the fair's states area, several buildings contain either indigenous art, or contemporary works, or both.

— Murals, most of which have been created by individuals whose names you aren't likely to find in the art books, have broken out like measles all over the place. Some of them are distinguished only by their enormous size, particularly in the commercial exhibits.

The Vatican Pavilion is not the only one to present religious art. The Russian Orthodox Greek Catholic Church of America is displaying a famous icon painted in Russia about 1400, called "The Virgin of Kazan," valued at half a million dollars.

Spain is presenting a group of paintings from the Prado in Madrid, including portraits by Velasquez, Zurbaran and Goya, as well as an El Greco. A group of modern paintings includes three Picassos.

### CHINA'S COLLECTION

Elsewhere in the international area, the Republic of China is exhibiting what is described as the largest collection of Oriental art ever sent to the West — bronzes, porcelains, carved jade and calligraphy.

Japan has scheduled demonstrations of wood block printing; India has sent examples of its ancient art, and Greece is displaying replicas of ancient sculpture. The African pavilion has primitive art loaned by several museums. Ireland has several examples of ancient Celtic art. The United Arab Republic is showing a comprehensive collection of art objects from ancient Egypt, from half a dozen periods.

### FROM THE U.S.

In the federal and states area, the New York State Pavilion has art on the inside and outside. Ten contemporary artists, most of them from the Pop Art field, have created avant-garde works to decorate the outside. Many visitors will be pop-eyed.

On the inside there is a 1964 exhibition surveying New York state painting room from the 17th to 19th Centuries, called

"The River: People and Places," with the Hudson River School playing a prominent part. In 1965 the exhibit will center around "The City: People and Places."

Montana has brought in some originals of western paintings by Charles Russell, and Texas has some replicas of Russell and Remington paintings, as well as some contemporary works. Florida has a rotating exhibit of Old Masters and contemporary works borrowed from private collections. New Jersey has an outdoor exhibit of sculpture and an indoor art show of contemporary works from that state.

## BOYLE'S Grab Bag

NEW YORK (AP) — Things a columnist might never know if he didn't open his mail

Teen-age scholars who find it hard to buckle down to their books might take a tip from Demosthenes. That orator of ancient Greece shaved the hair off one side of his head so he'd be ashamed to be seen on the street—and thereby forced himself to stay home and study.

Can money buy happiness? Psychologists say yes, to a certain extent. Income makes little difference to the very young, but a great deal of difference to those who are older.

Examples of why foreigners find our language so confusing: for, four, fore; there, their; they're; new, knew, gnu.

### FOUNDED IN REBELLION

Quotable notable: "America was founded in rebellion, and it should continue in rebellion till every fair loyalty is cast off and concern for the common well-being accepted as the single loyalty worthy of respect"—Vernon Louis Parrington.

Thieves stole \$4,974 cars in the first quarter of this year, 25 per cent more than for a similar period in 1963.

If your son or daughter is looking for a promising career, why not train him or her to be a papyrologist? In the entire world there are no more than 30 of these detective scholars who track down details of old civilizations by the study of papyri, writing material used in the Mediterranean area until the 7th century.

### BUY WHITE SHIRT

Lady, if you want your husband to behave, buy him a white suit. It has been found that people wearing white clothing act more sedately than when they're sporting other colors.

Folklore: If you give a friend a pin, it will spoil your friendship. To hand a salt shaker to someone is to hand him sorrow. If a maiden puts a four-leaf clover in her shoe, the first unmarried man she meets she'll wed.

Worth remembering: "A person with an hour to kill usually spends it with someone who can't spare a minute"—Arnold Glasow.

It was Benjamin Disraeli who made the famous observation, "There are three kinds of lies: lies, damned lies, and statistics."

NEW YORK (AP) — Jumping to conclusions:

Dandelions, now gleaming like gold coins on millions of American lawns, are among the loveliest plants known to man. Anybody who uproots them before they are through blooming is a snob and a horticultural social climber—and may his green thumb turn blue!

Flying from Chicago to New York last week, I heard a fellow
